

Beavers in Our Landscape

A workshop on understanding and living with beavers

Join us to share your knowledge and experiences

Developed for Alberta landowners, municipalities, natural resource managers, and others!

Whether you love them, hate them, want to understand them, think you need them, or just want to learn how to live with them, you will find this workshop useful.

Discussion led by Cows & Fish. Topics include:

- **Beaver basics** - Ecology, natural history, beaver role in watersheds
- **Beaver challenges** - Issues, management, options and alternatives
- **Beaver case studies** - How others are dealing and living with beavers
- **Beaver banter** - Round table discussion on beaver messages, messaging, management issues, management options, information needs
- **Beaver next steps** - Awareness messages, tool development, beaver role in watersheds, reintroductions and future management

An integral part of the workshop will be discussion about challenges, concerns and values.
