

# Little GreenThumbs

plant grow eat share

Little Green Thumbs is indoor gardening program which gives students the chance to produce their own food and learn about the hard work, time and care it takes to grow food. This hands-on, inquiry-based education program help students learn the values of themselves, the environment, and their community.

LICA—Environmental Stewards is the host organization for Little Green Thumbs in our region. The LICA Education & Outreach Coordinator helps students engage and learn about their classroom garden. Educating students on the roles and importance plants have in our ecosystem to promote environmental stewardship within the community.

If your school is interested in having LICA host a Little Green Thumbs garden in your school please fill out our application form on our website [www.lica.ca/education](http://www.lica.ca/education)
